Career Objective

Motivated and detail-oriented Computer Science Engineering student with a strong foundation in full-stack web development and programming using Python and Java. Experienced in building academic and real-world projects using the MERN stack, with a keen interest in solving problems through efficient and scalable solutions. Passionate about learning new technologies, collaborating in team environments, and continuously improving technical and soft skills. Eager to contribute to innovative software development projects and grow as a professional in the tech industry.

Education

Malla Reddy University

B.Tech, Computer Science and Engineering w/s CSE , 8.04 CGPA

Narayana Junior College

Higher Secondary, 85.5 Percentage

Keshava Reddy Fields High School

Higher Primary, 100%

Hyderabad, Telangana

September 2022 - July, 2026

Anantapur, Andhra Pradesh

July, 2020 - March, 2022

Anantapur, Andhra Pradesh

June, 2019 - March, 2020

Skills

Programming Languages: Python, Java

Web Development: HTML, CSS, JavaScript

Database Management: MySQL, MongoDB

Certification Courses

Programming Fundamentals(coursera)

Python Programming Essentials(coursera)

The Java Language(coursera)

Software Engineering Job Simulation(Forage)

Projects

TOM STORE – Online Bookstore (Academic Project)

- Designed and developed a book e-commerce platform.
- Created front-end using HTML, CSS and integrated logic with Python. Enabled users to browse, search, and buy books for a smooth shopping experience.
- Gained hands-on skills in UI/UX, web page styling, and form handling.

PORTFOLIO NAVIGATOR

- Developed a Java-based desktop application to help users create and manage portfolios.
- Focused on both front-end form handling and back-end logic implementation.
- Strengthened object-oriented programming and GUI concepts.

SMART SCHEDULER FOR PROFESSORS

- Developed a web app to manage professor schedules with HOD and professor roles.
- Built using React, Node.js, Express, and MongoDB.
- Integrated AI logic to suggest conflict-free time slots and streamline scheduling.

Co-Curricular Activities

- Handled event planning, participant management, and real-time session support.
- Enhanced learning outcomes and engagement through hands-on activities.
